Cautionary Statement Regarding Forward-Looking Information and Adjusted Information

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business, operations, financial condition, financial performance and asset quality. Forward-looking statements are necessarily subject to numerous assumptions, risks and uncertainties, which change over time.

The forward-looking statements in this presentation are qualified by the factors affecting forward-looking statements identified in the more detailed Cautionary Statement included in the Appendix, which is included in the version of the presentation materials posted on our corporate website at www.pnc.com/investorevents. We provide greater detail regarding these factors in our 2006 Form 10-K, including in the Risk Factors and Risk Management sections, and in our first and second quarter 2007 Form 10-Qs and other SEC reports (accessible on the SEC's website at www.sec.gov and on or through our corporate website).

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation speak only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following types of adjustments: (1) 2006 periods reflect the impact of the deconsolidation of BlackRock by adjusting as if we had recorded our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting the 2006 periods to exclude the impact of the third quarter 2006 gain on the BlackRock/MLIM transaction and losses on the repositioning of PNC's securities and mortgage loan portfolios; (3) adjusting fourth quarter 2006 and the 2007 periods to exclude the net mark-to-market adjustments on PNC's remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with the company's transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting all periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; and (5) adjusting, as appropriate, for the tax impact of these adjustments. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement and balance sheet. We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments for the periods discussed, this is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified therein or in the Appendix, is qualified by GAAP reconciliation information available on our corporate website at www.pnc.com under "About PNC – Investor Relations."

Cautionary Statement Regarding Forward-Looking Information

Appendix

We make statements in this presentation, and we may from time to time make other statements, regarding our outlook or expectations for earnings, revenues, expenses and/or other matters regarding or affecting PNC that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act. Forward-looking statements are typically identified by words such as “believe,” “expect,” “anticipate,” “intend,” “outlook,” “estimate,” “forecast,” “project” and other similar words and expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made. We do not assume any duty and do not undertake to update our forward-looking statements. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those that we anticipated in our forward-looking statements, and future results could differ materially from our historical performance.

Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding some of these factors in our Form 10-K for the year ended December 31, 2006, including in the Risk Factors and Risk Management sections of that report, and in our first and second quarter 2007 Form 10-Qs and other SEC reports. Our forward-looking statements may also be subject to other risks and uncertainties, including those that we may discuss elsewhere in this news release or in our filings with the SEC, accessible on the SEC’s website at www.sec.gov and on or through our corporate website at www.pnc.com under “About PNC – Investor Relations – Financial Information.”

- Our businesses and financial results are affected by business and economic conditions, both generally and specifically in the principal markets in which we operate. In particular, our businesses and financial results may be impacted by —
 - Changes in interest rates and valuations in the debt, equity and other financial markets.
 - Disruptions in the liquidity and other functioning of financial markets, including such disruptions in the markets for real estate and other assets commonly securing financial products.
 - Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.
 - Changes in our customers’, suppliers’ and other counterparties’ performance in general and their creditworthiness in particular.
 - Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors.
- A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly by affecting our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.
- Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund BlackRock long-term incentive plan (“LTIP”) programs, as our LTIP liability is adjusted quarterly (“marked-to-market”) based on changes in BlackRock’s common stock price and the number of remaining committed shares, and we recognize gain or loss on such shares at such times as shares are transferred for payouts under the LTIP programs.
- Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, which can affect market share, deposits and revenues.

Cautionary Statement Regarding Forward-Looking Information

(continued)

Appendix

- Our ability to implement our business initiatives and strategies could affect our financial performance over the next several years.
- Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or results of operations or our competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention, our ability to attract and retain management, liquidity and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of legal proceedings or regulatory and other governmental inquiries; (b) increased litigation risk from recent regulatory and other governmental developments; (c) the results of the regulatory examination process, our failure to satisfy the requirements of agreements with governmental agencies, and regulators' future use of supervisory and enforcement tools; (d) legislative and regulatory reforms, including changes to laws and regulations involving tax, pension, education lending, and the protection of confidential customer information; and (e) changes in accounting policies and principles.
- Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our businesses, including, where appropriate, through the effective use of third-party insurance and capital management techniques.
- Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs and to meet competitive demands.
- The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual property claimed by others, can impact our business and operating results.
- Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities, either as a result of the impact on the economy and financial and capital markets generally or on us or on our customers, suppliers or other counterparties specifically.
- Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance relating to our equity interest in BlackRock, Inc. are discussed in more detail in BlackRock's 2006 Form 10-K, including in the Risk Factors section, and in BlackRock's other filings with the SEC, accessible on the SEC's website and on or through BlackRock's website at www.blackrock.com.

We grow our business from time to time by acquiring other financial services companies, including our pending Sterling Financial Corporation ("Sterling") and Yardville National Bancorp ("Yardville") acquisitions. Acquisitions in general present us with risks other than those presented by the nature of the business acquired. In particular, acquisitions may be substantially more expensive to complete (including as a result of costs incurred in connection with the integration of the acquired company) and the anticipated benefits (including anticipated cost savings and strategic gains) may be significantly harder or take longer to achieve than expected. In some cases, acquisitions involve our entry into new businesses or new geographic or other markets, and these situations also present risks resulting from our inexperience in these new areas. As a regulated financial institution, our pursuit of attractive acquisition opportunities could be negatively impacted due to regulatory delays or other regulatory issues. Regulatory and/or legal issues related to the pre-acquisition operations of an acquired business may cause reputational harm to PNC following the acquisition and integration of the acquired business into ours and may result in additional future costs arising as a result of those issues.

Any annualized, proforma, estimated, third party or consensus numbers in this presentation are used for illustrative or comparative purposes only and may not reflect actual results. Any consensus earnings estimates are calculated based on the earnings projections made by analysts who cover that company. The analysts' opinions, estimates or forecasts (and therefore the consensus earnings estimates) are theirs alone, are not those of PNC or its management, and may not reflect PNC's, Yardville's, Sterling's or other company's actual or anticipated results.

(a) Amounts adjusted to exclude the impact of the following pretax items: (1) the gain of \$83 million recognized in connection with PNC's transfer of BlackRock shares to satisfy a portion of our BlackRock LTIP shares obligation, (2) the net mark-to-market adjustment totaling \$82 million on our remaining BlackRock LTIP shares obligation, and (3) acquisition and BlackRock/MLIM transaction integration costs totaling \$72 million. The net tax impact of these items is reflected in the adjustment to income taxes.

(b) Amounts adjusted to exclude the impact of the following pretax items: (1) the gain of \$2.078 billion on the BlackRock/MLIM transaction, (2) the loss of \$196 million on the securities portfolio rebalancing, (3) BlackRock/MLIM transaction integration costs of \$91 million for the first nine months of 2006, and (4) the mortgage loan portfolio repositioning loss of \$48 million. The net tax impact of these items is reflected in the adjustment to income taxes. We believe that information as adjusted for the impact of these items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities. Additionally, the amounts are also adjusted as if we had recorded our investment in BlackRock on the equity method. We believe that providing amounts adjusted as if we had recorded our investment in BlackRock on the equity method for all periods presented provides a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact on various components of our consolidated income statement.
